Integer_Value_of_Char

```
//Integer Value of Char (ASCII)
//American Standard Code for Information Interchange
//Mr. H.

int singleCharacter;

void setup() {
 size(600, 600);
}

void draw() {
 background(255);
 //displays text
 fill(0);
 textSize(24);
 text("The ASCII Value of the key pressed is:", 20, 50);
 text(singleCharacter, 20, 80);
}

//the new void enters a single letter as char
void keyPressed() {
 singleCharacter = key;
}
```
